G. J. Hall M. D.

## RETAIL CATALOG - FALL, 1950 - SPRING, 1951

CAMELLIA HALL plants are recognized by experts as being of superb quality. Our nursery is certified by California Department of Agriculture - - permitting shipment in California without inspection. California buyers KNOW this means "clean stock". All plants are CONTAINER GROWN. No root loss.

Shipping methods are under rigid inspection to conform to your State regulations. Your orders are filled by the owners of Camellia Hall to give you the "best choice".

Cash with order. No C.O.D. orders. Shipments go via Railway Express, charges collect.

It may be noted that prices of our plants have in many instances been substantially reduced since last year, although quality has not been reduced, and there is no charge for the cost of preparation for shipping.

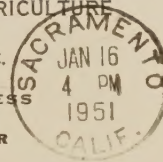

**GUARANTEE:** We guarantee plants to be well grown, healthy and pest-free, properly packed and crated. Safe arrival is insured by Railway Express. Subsequent care of plants is beyond our control, hence our responsibility ceases after receipt by Railway Express. Extreme care is given to the selection of cuttings, but we cannot guarantee that plants will not sport or mutate. Often the sport or mutation is more valuable than the original. Grafts: Unless otherwise indicated, one year grafts are in one gallon containers.

We suggest pooling orders with friends to reduce the per plant cost of shipping. Express costs per plant are lower on large shipments to one address. Please do not request shipment on orders amounting to less than \$5.00.

**WE HAVE LIMITED QUANTITIES OF MANY VARIETIES NOT LISTED.  
LET US KNOW YOUR WANTS, REGARDLESS OF SIZE OR VARIETY.**
